# BOAT SALES

LAKELAND LEISURE ESTATES

## Description

Introducing *Bella Luna* - a beautifully laid-out 50ft x 10.5ft widebeam, built and fitted out by Floating Homes Boats Ltd in 2006. This well-appointed vessel is ideal for liveaboard life, holidays or long-term cruising. With a warm and welcoming interior, practical appliances and a solid specification, this boat is perfect for anyone seeking life on the water with comfort and functionality.

The layout runs from stern to bow: lounge, galley, bathroom and master bedroom. The spacious lounge is a comfortable and relaxing area featuring a wall-mounted TV. A large L-shaped sofa converts to a bed offering additional sleeping capacity for guests, making this space both practical and versatile. The Marine Diesel stove with a separate fuel tank provides reliable and cozy heating, ideal for staying warm during the colder months.

The galley is fully equipped for life afloat with a gas oven and four-ring hob, complemented by an overhead extractor hood for ventilation. It includes a kettle, toaster, microwave, and a 240v fridge to meet all cooking and storage needs. A gas boiler provides hot water.

The bathroom features an electric flush pump-out toilet, a full-sized shower and a basin. A 340-litre waste tank, located under the bed, offers excellent capacity for extended cruising or off-grid living.

Located at the bow, the master bedroom includes a double bed that cleverly converts into daytime seating, maximizing space and usability. A wall-mounted TV adds entertainment and relaxation, and built-in storage helps keep the space tidy and organised.

The boat is powered by a reliable raw water-cooled Perkins M50 engine paired with a PRM gearbox. The interior is insulated with foam and heated by the Bubble stove and an electric tube heater. Electrical supply options include 12v and 240v systems, with power available via shoreline, solar, generator, and inverter (not currently connected). The boat also includes a Sterling ProSave galvanic isolator, two leisure batteries, and one starter battery.

Whether you're looking to cruise the waterways at weekends or settle into full-time life aboard, *Bella Luna* is a well-maintained and thoughtfully designed widebeam that offers a comfortable, self-sufficient home on the water.
