BOAT SALES

LAKELAND LEISURE ESTATES

Description

Calypso is a beautifully presented 57ft x 10ft widebeam, designed with space, comfort, and homely charm in mind. Built by Liverpool Boat Company and fitted out by New Mills Marina, this well-balanced vessel has served as a beloved family home—combining practical liveaboard features with an inviting, modern interior.

From the moment you step aboard, Calypso feels welcoming and well cared for. The wide beam provides generous headroom and bright, open living spaces, while thoughtful upgrades throughout make this a home ready to move straight into. A reliable Isuzu engine and 2kW Victron inverter provide dependable cruising power, while spray foam insulation, a stern cover, and a recently serviced Morso wood burner (October 2025) ensure comfort through all seasons. Whether moored up for a peaceful retreat or exploring the waterways, Calypso offers the perfect blend of practicality and serenity.

The galley is both stylish and functional, featuring a new gas stove and fridge/freezer (both installed in 2024), a stainless steel sink and drainer, and plenty of fitted cupboards for storage. The thoughtful layout provides ample workspace for preparing meals, while large windows fill the area with natural light—creating a warm and homely heart to the boat.

Flowing seamlessly from the galley, the open-plan lounge and dinette form a spacious and comfortable living area. The Morso wood burner, recently serviced in October 2025, provides a cosy focal point for cooler evenings, while the new sofa and drop-leaf dining table offer flexible seating for relaxation or entertaining. A specially designed children's bedroom/den is also cleverly incorporated into this space, providing a dedicated area for children to play, sleep, or have their own private retreat, making this boat ideal for families. Newly built storage cupboards keep the space tidy and uncluttered, enhancing the tranquil feel. With soft lighting and an airy design, it's an ideal space to unwind or gather with friends and family.

Located at the stern, the master bedroom is a calm and inviting sanctuary. The queen-size bed provides comfort and practicality with generous storage underneath, while the built-in wardrobe, drawers, and shelving (six in total) ensure ample space for clothing and personal items. Thoughtful touches like fitted lighting and neutral finishes make this a restful space to retreat to at the end of the day.

The bathroom combines functionality with a modern, eco-conscious design. It features a compost toilet, a bath with overhead shower, sink with vanity unit, and handy shelving for toiletries and linens. The room feels bright and well proportioned—perfect for both everyday use and a touch of comfort on the water.
